Education

University of Delhi

Bachelor of Science in Computer Science

Sep 2022 – Jun 2025

Dhaura Kuan, New Delhi

Experience

Techxspire-Technologies

Frontend Developer

Nov 2025 – Jan 2026

Remote, New Delhi

- Engineered complete frontend for social media admin panel using **ReactJS**, **React Query**, **Axios**, and **Tailwind CSS**; delivered production-ready MVP within 3-month sprint with **clean, reusable, and maintainable component architecture**.
- Developed **analytics dashboard** with Chart.js showing platform growth metrics; integrated **REST APIs** with caching and optimistic updates; implemented responsive layouts using **Tailwind CSS + Material UI**.
- Practiced **industry-standard Git / version control** workflow with feature branches, pull requests, and semantic commits; performed **problem-solving and debugging** across the entire frontend stack using React DevTools and browser developer tools.
- Developed **content moderation interface** with **responsive design principles** displaying individual posts and media previews; integrated block/unblock toggles with optimistic updates using React Query mutations for instant UI feedback across **cross-browser compatible** layouts.

Projects

Looks

Jan 2025 - Apr 2025

ReactJs, CSS3, NodeJs, Express, MongoDB

- Engineered **complete e-commerce frontend** with ReactJS, custom CSS modules, and React Router DOM; connected to self-built Node/Express backend deployed on AWS.
- Implemented **JWT authentication flow** on frontend—stored tokens securely, attached credentials to requests, and protected routes based on login state.
- Built **dynamic shopping cart and wishlist** with add/remove/update quantity functionality, managed complex UI state for real-time price updates and item persistence.
- Designed **advanced filter sidebar** with 5+ criteria, synced filter state to URL parameters using React Router hooks for shareable and refresh-persistent links.

Popcorn

Aug 2025 - Oct 2025

ReactJs, React-Query, Zustand, Axios, Typescript, TailwindCSS

- Built **TMDB-powered movie platform** with React Query for cached data fetching, paginated infinite scroll, and background refetching; implemented search with debouncing and loading skeletons.
- Managed **global state with Zustand** for persistent bookmarks and watch later list; integrated YouTube trailer modals, upcoming releases carousel, and responsive Shadcn UI/Tailwind components.
- Optimized performance with **code splitting** (React.lazy + Suspense) and Intersection Observer-based infinite scroll using useInfiniteQuery reduced bundle size and improved LCP.

Drawmify

Sep 2025 - Nov 2025

ReactJs, Canvas Api, Vite, TailwindCSS, Zustand

- Built **infinite canvas drawing app** with native Canvas API—implemented shapes (rectangle, circle, triangle, line, arrow), freehand drawing, eraser, and real-time preview with hit detection.
- Managed **complex state with Zustand** including canvas elements, viewport position, zoom level, and tool config, built command pattern-based **undo/redo system** with unlimited history.
- Engineered **infinite canvas navigation** with pan/zoom, viewport constraints, styled with Tailwind CSS and bundled with Vite.

Technical Skills

Languages: Java, TypeScript, JavaScript(ES6+), HTML5, CSS3, Python, Supabase

Backend: Spring Boot, Node.js, Express.js, Prisma, PostgreSQL, MySQL, Supabase, MongoDB, AWS, RestAPIs

Frontend: ReactJs, React Query, Axios, Zustand, TailwindCSS, Shadcn UI, Material UI, Bootstrap, NextJs

Developer Tools: VS Code, Git, Cursor, LLM

Technologies/Frameworks: Linux, GitHub, Jest, mocha, CI/CD, Data structures and algorithms
